Supply Chain Analyst with a background in software engineering and hands-on warehouse operations. Experienced in demand forecasting, inventory optimization, logistics coordination, and building data tools using Python, SQL, Power BI, and Excel. Eligible to work full-time in Canada; open to travel across the USA.

## EXPERIENCE

---

### Supply Chain & Operations Analyst

Surrey, BC

CCS

Nov 2025 – Ongoing

- Conduct ongoing demand and inventory analysis for a 145,000-pallet cold storage facility, supporting replenishment planning, rack allocation, and inventory availability across 3500+ SKUs.
- Manage 25+ inbound/outbound FTL/LTL shipments daily, ensuring 100% OTIF delivery and cold chain compliance.
- Built KPI dashboards tracking inbound, outbound, and inventory performance, reducing manual reporting time by 80% and enabling faster data-driven operational decisions.
- Trained 10+ new employees on WMS, RF/QR scanners, HACCP compliance, MHE operation, and standard operating procedures.

### Software Engineer - Data & Operations

Surrey, BC

Key Innovations Inc.

Jan 2025 – Nov 2025

- Automated order management by building REST API integrations that synced WooCommerce and Smartstore e-commerce orders directly into Syncore ERP, eliminating 40 hours/week of manual data (~\$52K annual savings).
- Developed a calendar-based order tracking application on top of Syncore ERP's API to monitor open orders and deadlines, saving ~\$900/week in operational overhead and reducing missed follow-ups.
- Built a SaaS-style quoting system replacing Excel-based pricing workflows, reducing quote turnaround time by 60–80%.
- Designed and maintained Power BI dashboards and SQL queries reporting on sales trends, demand patterns, and delivery performance KPIs, enabling data-driven decisions for senior management.

### Hub Supervisor

Richmond, BC

Ups Canada

Oct 2023 – Jan 2025

- Promoted from loader/unloader to Hub Supervisor; oversaw 25,000+ daily package volume across inbound and outbound operations, managed 15+ trailers and dock doors per shift.
- Supervised 10+ employees per shift; assigned tasks, monitored workloads, and balanced staffing based on volume fluctuations.
- Trained and onboarded 30+ employees on sortation processes, RF scanners, data entry protocols and WHMIS safety procedures.

## PROJECTS

---

**Supply Chain Analytics Portfolio** — Sales performance analysis, operational analysis, inventory optimization, demand planning, Replenishment planning and KPI dashboards.

## SKILLS

---

**Analytics:** Python (pandas, NumPy, Matplotlib, scikit-learn), SQL, Power BI, Excel (PivotTables, XLOOKUP, Forecasting), KPI Reporting  
**Supply Chain:** Demand Forecasting, Inventory Optimization, FTL/LTL, WMS/TMS, ERP (Syncore, SAP), BOL/PO, Cold Chain, HACCP  
**Engineering & AI:** REST API, Flask, FastAPI, Docker, Azure, Google Cloud, LangChain, OpenAI APIs, Git

## EDUCATION

---

**Post-Baccalaureate Diploma, Technical Management & Services** — Dean's Honour Roll 2025

Kwantlen Polytechnic University | 2024 – 2025

**BSc Hons. Computer Science & Software Engineering** — First Class Honours, GPA 4.0/4.0

University of Bedfordshire | 2019 – 2022

## LICENSES & CERTIFICATIONS

---

Demand Planning/Forecasting and S&OP, Google Cloud Digital Leader, Applied Data Science, Machine Learning
